

MS2.114/A-  
12V

## Motor siren | 12V DC | 116dB(A) @ 1m

### Specifications

|                                       |                        |                       |                |
|---------------------------------------|------------------------|-----------------------|----------------|
| Average current                       | 11,5A                  | Operating temperature | -20°C to +40°C |
| Brand                                 | La Sonora              | Operating time        | 15min          |
| Certificates, quality marks, markings | CE                     | Range                 | 600m           |
| Colour                                | RAL 7032 grey          | Rated current         | 15A            |
| Connection                            | Screw terminal         | Rated power           | 140W           |
| Dimensions                            | 157mm x 195mm          | Rated voltage         | 12V DC         |
| Effective range                       | 600m @ 1kHz            | Sound level (max)     | 116dB(A)       |
| Frequency                             | 725Hz                  | Type                  | Pre-configured |
| Ingress protection                    | IP44 engine / IP14 fan | Voltage               | 12V            |
| Material                              | Aluminium / ABS        | Voltage type          | DC             |
| Model                                 | Motor driven siren     | Weight                | 1700g          |

### Good to know ⓘ

The duty cycle can be adjusted to 50 % (e.g. 5sec on and 5sec off) to increase the operating time from 15min to 30min.
