## M22 buzzer, 12-24V AC/DC, black, M12 connector

### Specifications

|                       |                                   |                   |  |
|-----------------------|-----------------------------------|-------------------|--|
| Brand                 | PIPS                              | Operating voltage | 12/24 V AC/DC  |
| Built-in diameter     | 22,5mm                            | Rated current     | 12V DC 15mA /<br>12V AC 40mA / 24V<br>DC 25mA / 24V AC<br>70mA |
| Cable entry           | M12 cable gland                   | Sound level (max) | 92dB (A)   |
| Dimensions            | Ø50mm x 27,5mm                    | Voltage type      | AC   |
| Housing colour        | RAL 9000 black                    | Weight            | 70g  |
| Ingress protection    | IP65                              |                   |  |
| Material              | Polycarbonate, self-extinguishing |                   |  |
| Operating temperature | -30°C to +50°C                    |                   |  |

### Good to know

Locking ring included. EPDM o-ring on dome and polyuretanic gasket on base.
